

Adding and subtracting 10s

How could you use this numberline to help you with these?

$20 + 40 = \square$

$80 - 40 = \square$

$30 + 40 = \square$

$50 - 40 = \square$

$10 + 90 = \square$

$90 - 10 = \square$

$20 + 70 = \square$

$70 - 30 = \square$

Adding and subtracting 10s

How could you use this numberline to help you with these?

$$20 + 40 = \square$$

$$50 = \square - 10$$

$$\square = 70 - 30$$

$$\square + 30 = 90$$
